

ProQuest University Press Ebook Subscription

Leading Scholarly Content with Unlimited, Multi-user Access.

To make more of the most relevant content available, accessible, and discoverable to more libraries and their users than ever before, ProQuest now offers one collection with nearly 24,000 titles from 193 world-renowned university press publishers: University Press Ebook Subscription. This carefully-curated subscription highlights the rigorous peer-reviewed scholarship and influential connections to community and society that set university press titles apart from other content.

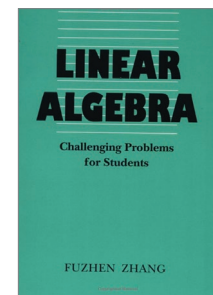

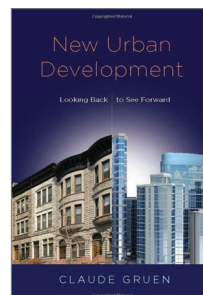

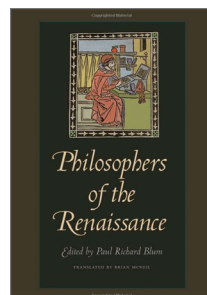

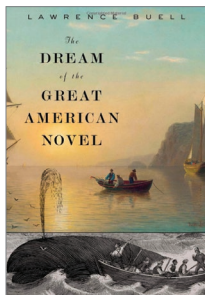

Content Highlights

University Press Ebook Subscription features:

- Scholarly yet readable cross-disciplinary content from world-renowned publishers, many available in subscription for the first time

- Balanced coverage across all LC Class subjects to support teaching, learning and researching needs at all levels of the academic curriculum
- Balanced currency with 15% of content published in 2013 or later and 37% of content published in 2010 or later
- Content that supplements Academic Complete, College Complete, Schools and Educators Complete and Public Library Complete — combine subscriptions to add value for your researchers through connecting scholarship to broader society!

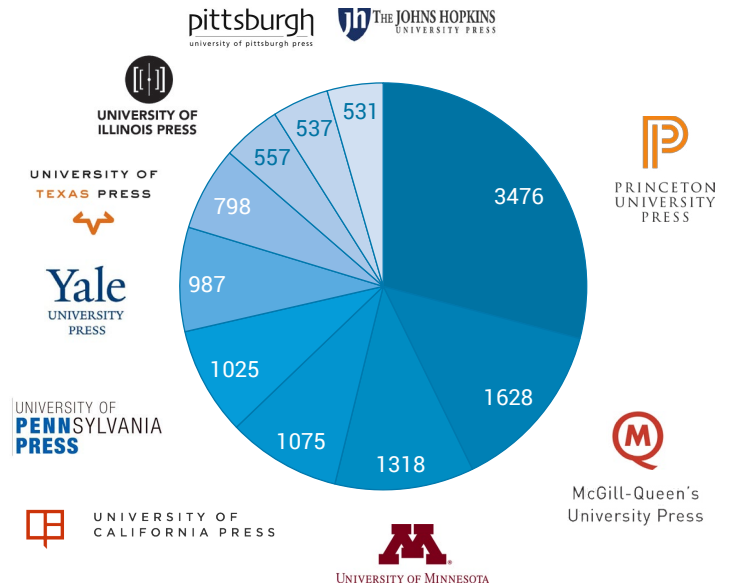

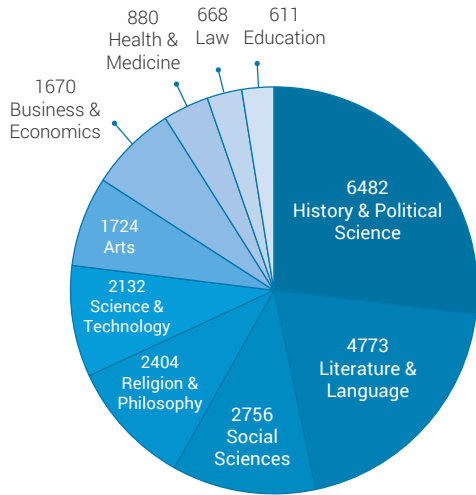

This collection can be enhanced with additional titles available through DDA or individual purchase.

ProQuest®

Key Participating Publishers

University Press Ebook Subscription includes content from more than three times the number of unique publishers than comparable university press collections.

Subscription Benefits

For Users:
